

License Agreement

You are licensed to use our "AutoLisp source code", for drawing or to include it in your programs that you sell, if you purchased it.

The Licensee will not distribute, sell, let, trade or expose it for sale to a third party.

By using this Lisp source without being licensed, you may be held liable for very significant legal damages.

You can test these programs in their executable shareware versions, from the programs in which they were implemented:

[RTOPO Hydrology CAD for topography](#)

[Topography in AutoCAD or BricsCAD](#)

[3DINTERSECTION for AutoCAD or BricsCAD](#)

[Cut and fill volume in AutoCAD or BricsCAD](#)
